Dear Parent/Carer,

Aerosols, perfumes and aftershaves within the Academy

I write to clarify the situation regarding bringing aerosols, perfumes and aftershaves (including deodorant and body sprays) onto the academy site. Students who wish to use a deodorant should purchase a roll-on variety, for use following a PE lesson or Enrichment session.

The carrying and use of aerosols, perfumes and aftershaves is forbidden.

This policy is not taken lightly, we have a number of students, and several staff members, who suffer from extreme allergic reactions to the use of such aerosols, perfumes and aftershaves or suffer from chronic asthma which can be triggered by their use. This includes being close to students who have just applied such items, in changing rooms, by lockers, in classrooms or in the corridor.

We will be reinforcing this expectation in tutor groups, but please remind your child as soon as possible what the academy position is with regard to aerosols, perfumes and aftershaves.

Thank you in anticipation of your continued support in ensuring the safety and wellbeing of all within our school community.

Yours faithfully,

Chris Drew
Principal
