

10th October 2023

Dear Parent/Carer

Parent Information Evening

As an Academy, we run a wide range of supportive interventions which can help young people to be successful in Key Stage Three and prepare them for a positive experience at GCSE. The relationship between home and school is very important and we welcome our parent's support in helping their child to succeed academically.

We would like to formally invite you to attend our 'Information Evening' on

Tuesday 17th October, 5-6pm.

This evening will provide vital information to you regarding the curriculum your child will study, homework and home learning as well as a very important update about our new parent portal. We have recently launched The Outwood Honours Program and this will be your chance to find out more!

There will be a brief presentation from key members of staff and the chance to speak to staff at the end of the evening.

Yours faithfully

Mr Drew
Principal
